PROJECTS

Dubai Aviation Engineering Projects (DAEP) is responsible for the delivery of aviation-related infrastructure projects, in the Emirate of Dubai, that exceed stakeholders' expectations and it is committed to the highest standards of management by developing, implementing and maintaining an Integrated Management System (IMS). DAEP recognizes that successful Innovation, Occupational Health and Safety, Security, Quality, Environment, Business Continuity, Information Security and Risk Management Systems are fundamental to the business and it is committed to continuously improve all relevant processes and procedures to ensure all standards are met or exceeded.

To meet the requirements of DAEP's IMS, we will:

- Foster innovation across all core and support units by applying Innovation Management System to seamlessly capture and process the organization's intellectual capital from ideation to implementation
- Enhance the Occupational Health and Safety culture, standards and performance in line with DAEP's Beyond Zero vision
- Work to ensure that the Quality of the products or services delivered to our stakeholders consistently meets or exceeds their expectations
- Develop and implement a comprehensive Environmental Management System with focus on continuous improvement and prevention of pollution
- Develop and implement a robust Business Continuity Management System to ensure resilient operations and continuous delivery of all critical services whether from a primary or a recovery site
- Develop and implement an effective Information Security Management System to protect DAEP information assets from all internal and external threats whilst ensuring confidentiality, integrity and availability of the information
- Develop and implement a comprehensive Enterprise Risk Management System to ensure that the risks are identified, analysed, and managed effectively, efficiently and coherently across the organisation
- Ensure that the project policies of our Consultants and Contractors are consistent with the principles and aims of this policy
- Comply with all relevant legislation, regulations and other legal and industry requirements
- Ensure that all employees understand their roles, responsibilities and accountabilities towards meeting IMS objectives, as aligned with DAEP's strategic objectives, as well as effectively implement all policies and procedures
- Continually review DAEP's IMS in order to improve our processes and services.

DAEP's IMS policy is established to achieve these objectives and maintain an effective and efficient IMS based upon the requirements of CEN/TS 16555-1:2013, OHSAS 18001:2007 (Occupational Health and Safety), ISO 9001:2015 (Quality), ISO 14001:2015 (Environment), ISO 22301:2012 (Business Continuity), ISO 27001:2013 (Information Security), ISO 31000:2009 (Risk) and all applicable legislation. This policy statement is communicated to all employees and persons working for or on behalf of the organisation and will be made available to the public, stakeholders and any other interested parties upon request. DAEP's IMS Policy will be reviewed on an annual basis by the Executive Management.

This Policy has been prepared and reviewed by the Integrated Management System Team
